

Name:	Date Due:
-------	-----------

1. List 5 topics that interest you in science that you want to learn more about:

- 1. _____
- 2. _____
- 3. _____
- 4. _____
- 5. _____

1. In a short paragraph explain which topic you choose first and why you choose it.

1. Compile a list of key words that you will use to search for information on your topic in the library and on the internet.

1. Write out a short statement of the problem which your science project will attempt to solve:

1. Explain in a paragraph how your project will be a benefit for the world and mankind:

1. List the resources you have found to research your topic:

Library	Community

Internet	Other

Your project can only be as good as your understanding of the scientific principles involved. If your sources have credibility then your project will have credibility.

- On completion turn this form into your teacher for planning marks.
- Be sure to include these sheets in your project data book

Give yourself a grade for your 'Proposal Sheet'. Be prepared to explain why you think you should get this mark.

Student Self Evaluation Grade: _____

Teacher Grade: _____
